REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
Remedy 14240	Summary: AFCPDFS Status Report has run 113 hours. Resolution: Added order by clause for the main cursor assignments to avoid snapshot too old error.	CPMS	Reports
Remedy 14332	Summary: When the NPA prints in Paris, the From side data is missing on NOA Code 130. Resolution: Modified the procedure code to match Paris layout for 'T' and 'P' actions.	CPMS	Other
Remedy 15833	Summary: JPAS tickler report rollback segment #61 with R57 too small. Resolution: Rewrote main query to retrieve all records from interface table.	AF	Reports
Remedy 16028	Summary: CIVMAP Report shows incorrect Mass Appraisal Process. Resolution: Modified code to submit the CIVMAP report only when there are errors.	AF	Mass Appraisals
Remedy 16113	Summary: NOA 721 prior to 1/11/04, populating incorrect locality rate. Resolution: Partial fix. Modified the code where NOA Code '721' and Demo Loc Code 'Q' and Pay plan (NH, NK, and NJ) was passing the effective date instead of the System Date. However, NH pay plan is still having problems.	AF	Pay
Remedy 16290	Summary: The PARIS file output is missing delimiters. Resolution: Modified the procedure code to match Paris layout for 'T' and 'P' actions.	DFAS	External Interfaces
Remedy 16323	Summary: Pseudo SF50s error out when entered remarks in block 45. Resolution: Created a script to increase maximum value and cycle for sequences and resetting the last value. Process log name is 'R16323'.	AF	NPA/50
Remedy 16327	Summary: Need Warning edit on "Employee Career Field" for Non-Acquisition Position. Resolution: Added a no value warning in the Career Field Edits procedure.	CPMS	Required Input

Remedy 16372	<p>Summary: DoD Correction prints wrong LAC Info (NPA), also flows the same to Paris.</p> <p>Resolution: Modified the procedure to ensure that the second action legal Authority code1 and description (fields 5C and 5D) flow into Paris correctly.</p>	AF	Corrections
Remedy 16383	<p>Summary: 894 Pay Adjustment received FRM-40735 POST-FORMS-COMMIT trigger error.</p> <p>Resolution: The trigger error was a result of a period "." contained in the position title. Period was causing custom code to retrieve position sequence when it was expecting group agency. Fixed custom code to correctly retrieve position details regardless of special characters entered in position title.</p>	WHS	Pay
Remedy 16398	<p>Summary: Closed/Processed RPAs are reappearing in users inbox.</p> <p>Resolution: Created a script to close the RPA and notification to avoid showing in user's inbox. Process Log Program Name = 'R16398'</p>	Army	RPA/52
Remedy 16400	<p>Summary: Incorrect pay block Number in Reconciliation Individual Mismatch sheets.</p> <p>Resolution: Pay Block is printing only two characters instead of three. Modified to correctly load three characters from position 152-154.</p>	Army	Pay Recon
Remedy 16440	<p>Summary: Position Type auto-populates to "None" on Quick Copy.</p> <p>Resolution: The Quick copy package was not retrieving all fields from current position to copy. Modified the code and API to copy all values.</p>	DeCA	Position
Remedy 16564	<p>Summary: Fix Custom Retrieval Code for Position Details.</p> <p>Resolution: The Custom code was retrieving position details like group agency, sequence number, position number by applying INSTR, and SUBSTR functions on position Name. If any segment of the position name contains a period ".", wrong value is returned. Which is causing possible PL/SQL errors for DCPDS users. Modified all the custom code to retrieve position details from position definition segments or position attributes instead of parsing from position name field.</p>	CPMS	Position
Remedy 16625	<p>Summary: No way to track certain EXITS job statuses.</p> <p>Resolution: Added code to check status of Manpower jobs, JPAS jobs, and DTS jobs in the Report Region Events procedure to be reported on the daily Region Events report.</p>	CPMS	External Interfaces

Remedy 16725	Summary: DMDC CRP98 FN report missing SCD Leave. Resolution: Modified package to convert canonical dates into regular format. Previous code erred out while converting and never printed values.	AF	Reports
